

Automated Ultrasonic Testing

ECHOGRAPH Testing Systems

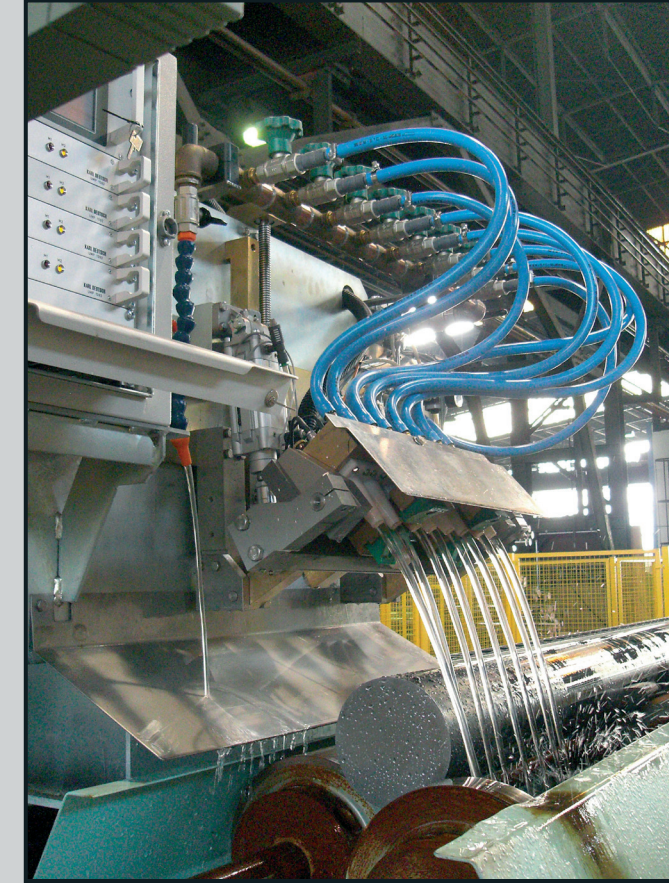

Ultrasonic Testing of Bars and Billets

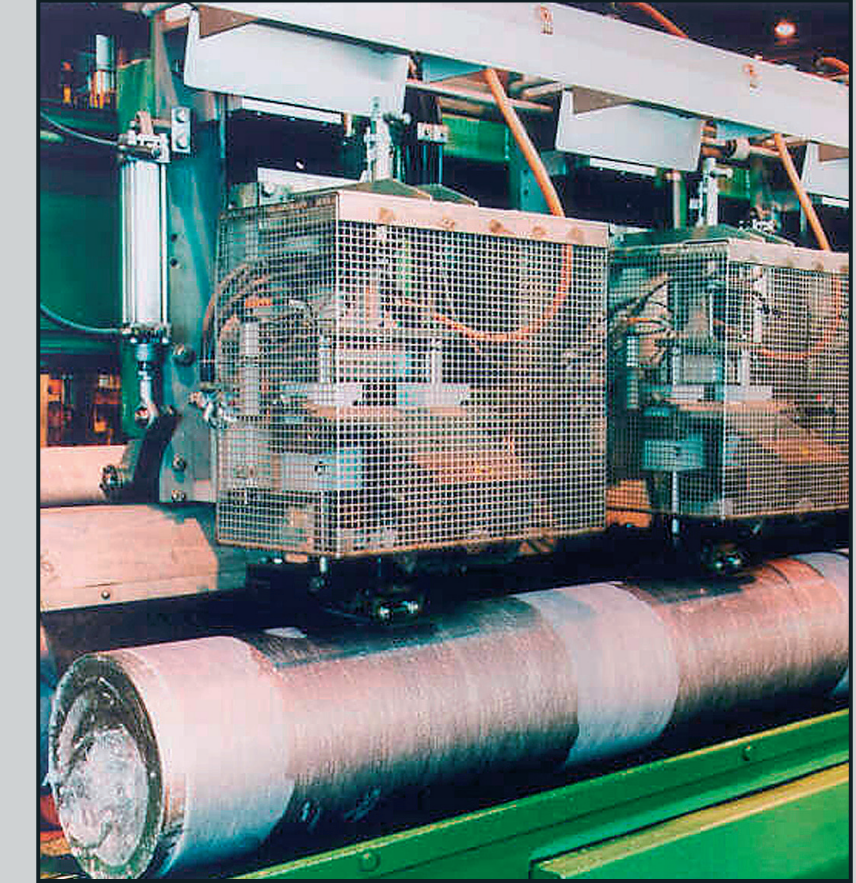

Bars (Ø 20-130 mm, 9 Sensors)

Billets (28 Sensors, Linear Feed)

Rotational Steel Bar Testing

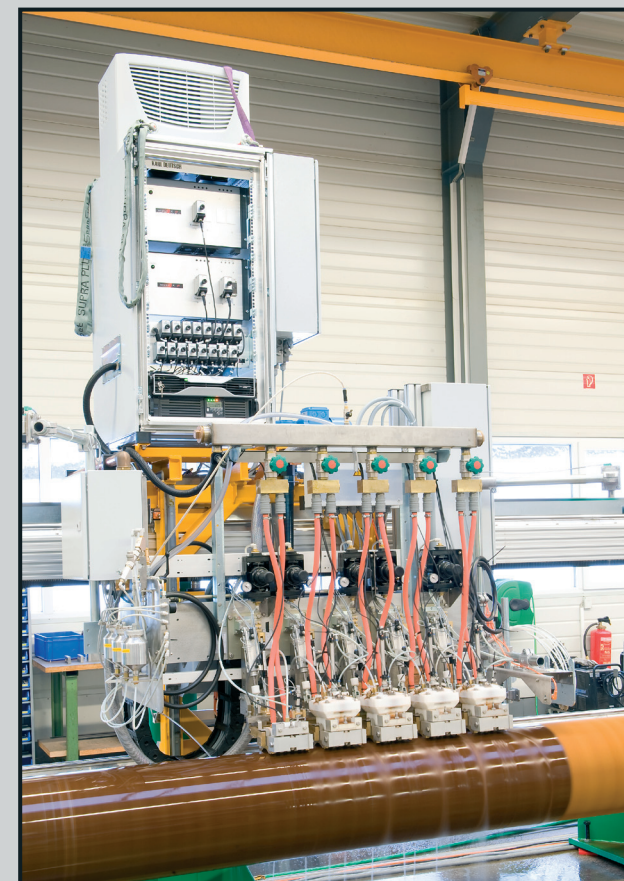

Rotational Aluminium Billet Testing

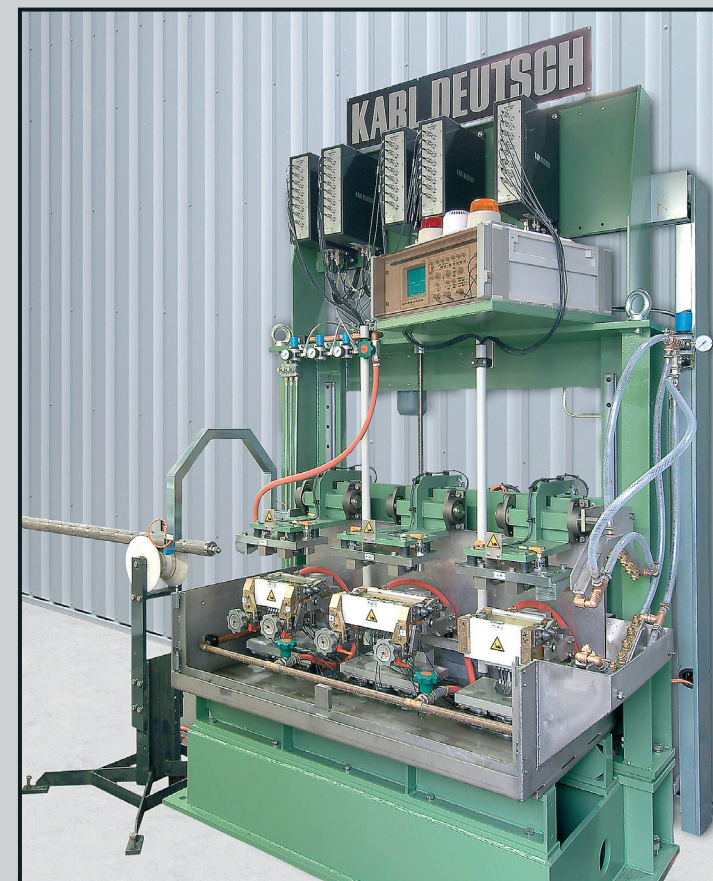

Ultrasonic Testing of Seamless and Welded Tubes

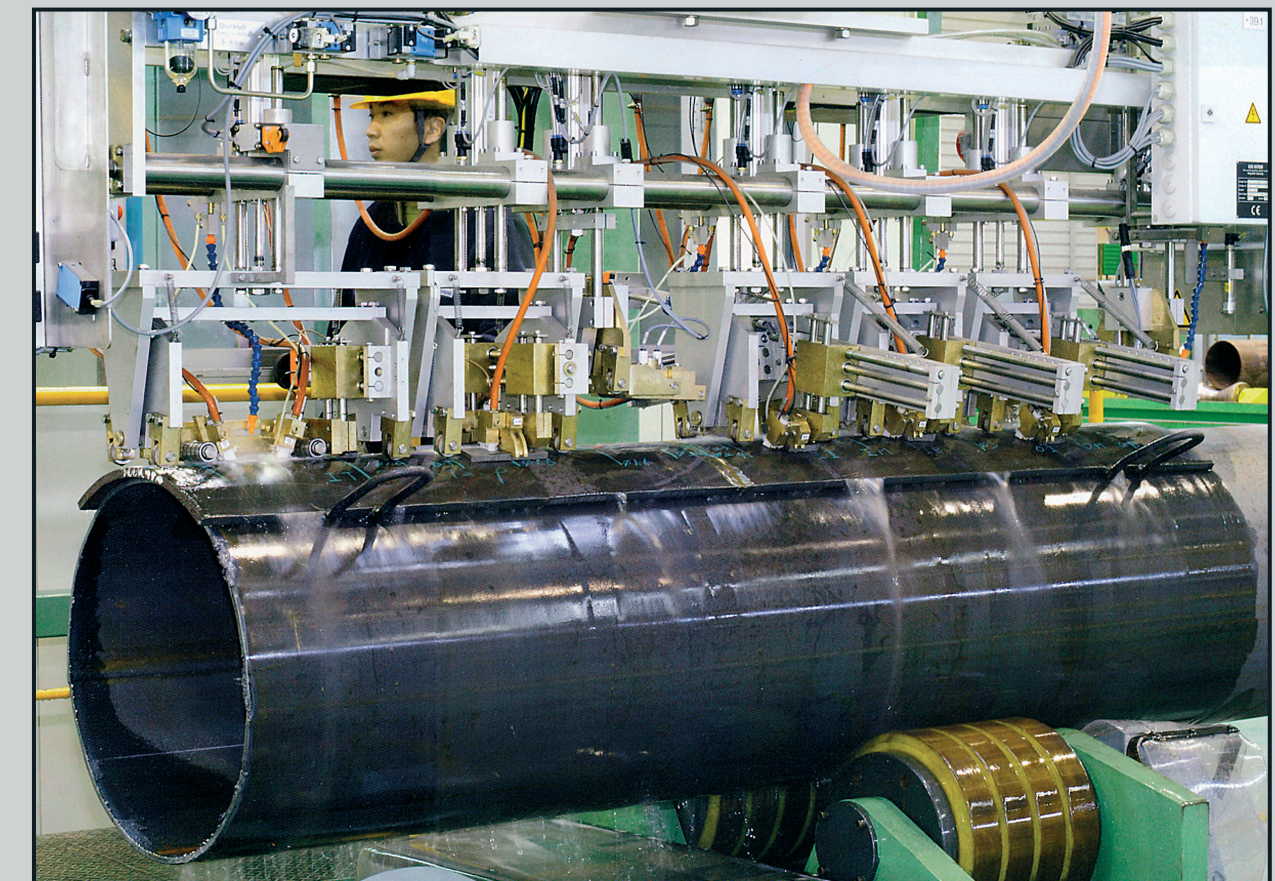

Immersion Tank (Linear Feed)

Phased Array Test Portal

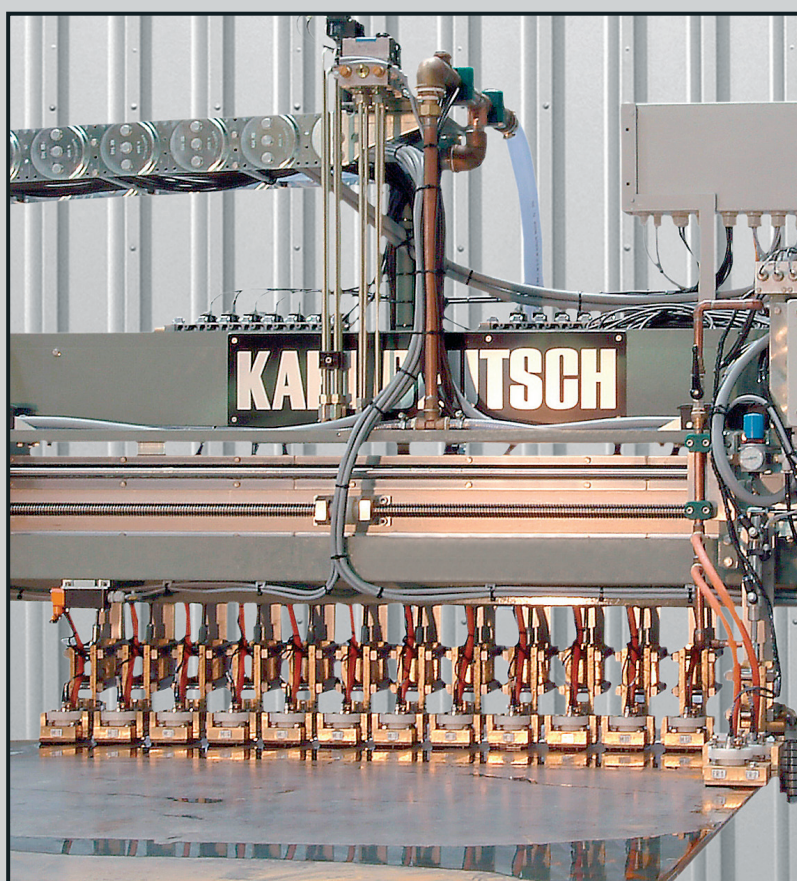

Partial Immersion (Helical Feed)

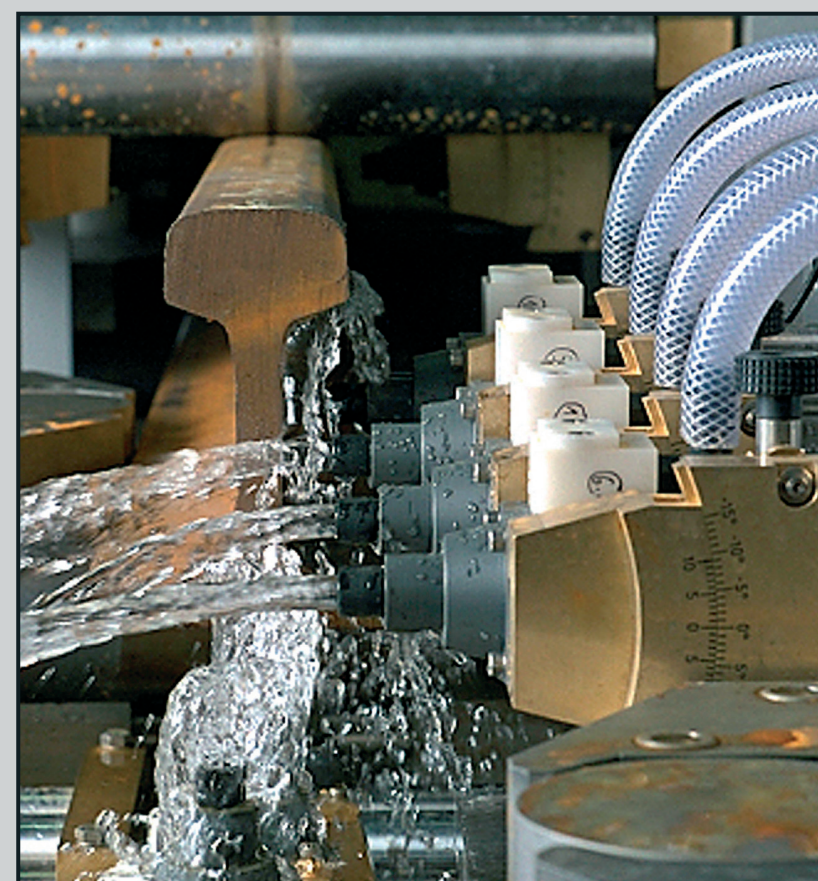

Weld Testing on Longitudinally Welded Tubes

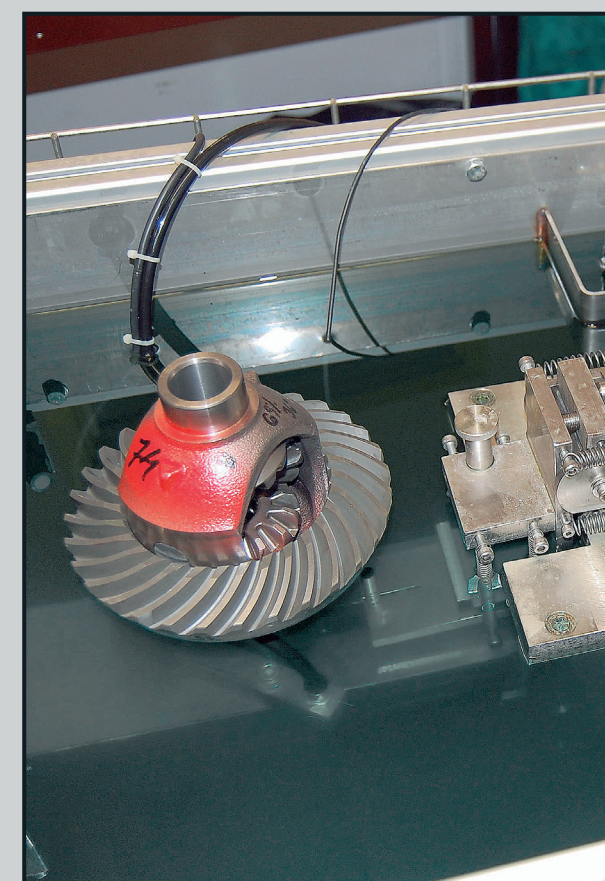

Ultrasonic Testing of Strips, Rails, Automotive Components and Pressure Cylinders

Strips (for ERW-tubes)

Rails (Squirter Coupling)

Gear Testing (Immersion)

Pressure Cylinders (10 Sensors, Rotational)
