

Bergische Kunstgenossenschaft e. V. (BKG) Wuppertal

The Bergische Kunstgenossenschaft (BKG) was founded in 1905 and is one of the oldest artists' associations in Germany. For more than 120 years, it has been committed to promoting art and culture in the region and beyond.

The BKG currently brings together around 36 artists from different generations, with diverse styles and backgrounds. The focus is on creative exchange, openness, diversity and the joint promotion of contemporary art.

Through numerous exhibitions, international collaborations and projects with Wuppertal's twin towns, the BKG makes an important contribution to the city's cultural life. At the same time, it fosters dialogue between people and cultures and promotes mutual understanding across national borders.

With the 'One World' project, the Bergische Kunstgenossenschaft e. V. is consistently continuing its international commitment this year, building on the spirit of last year's successful "Welcome Art" exhibition. Whilst "Welcome Art" showcased the artistic dialogue between Wuppertal and its twin towns in a joint exhibition, "One World" takes a decisive step further: The project brings artists from the twin towns together in Wuppertal and creates a space for encounters, exchange and collaborative creative work. New works are created through the immediate, on-site creative process, characterised by cooperation, mutual inspiration and cultural diversity. In this way, art is not merely presented, but developed and experienced together.

We are delighted with the generous fundraising campaign organised to mark the anniversary and the opening of the new factory at KARL DEUTSCH. We would like to express our heartfelt thanks to Mr Wolfram Deutsch and his company for their valuable support of our cultural work.

Thanks a million for this special commitment to art and culture in Wuppertal.
